AESTHETIC ASSURANCES BY SOLARIZER ANYWHERE

Emmvee is an intelligent solar solutions producer born from an idea to implement green energy to better use. We aim at providing universally designed products to support all kinds of contemporary and sustainable living. Amidst our industrial product range, Photovoltaics and Solar Water Heating Systems are our strongest since inception in 1992.

Is your water tank scarring the visual appeal of your home?

Introducing Solarizer Anywhere, a unique solar water heating module. The beauty of this solar water heating system is that it is not at all visible on your building, keeps the aesthetics of your home intact and does not need any electricity from the grid. The system is fully autonomous. This system uses a small photovoltaic module to power a pump that circulates the exchange fluid of heat between the collector and the storage tank. It is a very compact water heating system, high on hygiene and best suited for your lavish living.
